# AI Policy

PURPOSE
The objective of Banpu AI policy is to ensure responsible use of AI technology in Banpu group.

SCOPE
This Policy applies to all applicable parties - may include, but not limited to, Managements', employees', contractors', and/or third parties involved in all relevant AI activities (e.g., development, procurement, and use of AI) within Banpu.

POLICY STATEMENT

AI Policy Statements:

1. **Be Transparent About AI Use**
   AI technology adopters shall ensure that AI systems, intended to interact with natural persons, are designed and developed in such a way that natural persons are informed that they are interacting with an AI system.
2. **Risk Management Must Be "Continuous"**
   The adoption of AI within the company must be managed through the company's risk management process, overseen by Risk Management Committee continuously throughout the entire process of development, acquisition, and utilization within the company.
3. **Governance, must include Human Oversight and Board Updates**
   The development, acquisition, and use of AI within the company must be appropriately governed and verified by committee to prevent undesirable distortions (unethical/bias) of AI usage outcomes.
4. **Guard Against Data Privacy Risks**
   The development, acquisition, and utilization of AI within the company must involve appropriate data protection techniques to protect the privacy of data without the distortion of AI processed results.

(Mr. Sinon Vongkusolkit)
Chief Executive Officer
Banpu Public Company Limited
